

READ ME FIRST: The purpose of this report is to gain an understanding of the Honors College graduation counts for the 2020 - 2021 academic year (Fall '20, Spring '21, Summer '21 order). This report includes unduplicated student headcounts and degree counts for students who receive and/or apply for an honors degree. Counts refer to how many different students graduated in Fall 2020 with an honors degree, plus the number of students that have applied to graduate in Spring 2021 or Summer 2021 term with an honors degree. Note that there are limitations associated with these counts. Spring 2021 and Summer 2021 counts are projected counts, and are based on how many students applied to graduate. Spring 2021 and Summer 2021 are based on a live snapshot at the time of this report, but some students may not actually graduate in Spring 2021 or Summer 2021. Others may apply to graduate at a later date and are not captured in this report.
