UNIVERSITY OF UTAH

ANNUAL SECURITY & FIRE REPORT

The University of Utah's Annual Security & Fire Safety Report is published each year to provide annual crime and fire statistics and information on safety and security-related services offered by the university. This report is designed to provide students, staff, faculty, and visitors with personal and fire safety information and to comply with the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act.

PREPARATION OF THE ANNUAL SECURITY & FIRE REPORT

The Annual Security & Fire Safety Report is prepared with data and information provided by the University of Utah Department of Public Safety, the Office of the Dean of Students, the Office of Environmental Health and Safety, the Office of Equal Opportunity and Affirmative Action, the Center for Student Wellness, Emergency Management, Housing & Residential Education, Campus Security Authorities, and numerous law enforcement agencies that provide services to university controlled facilities and properties within their jurisdictions. These resources are now formally brought together on a quarterly basis via the formation of a "Clery committee" in 2014. The report summarizes university and campus safety policies, procedures, and designed to enhance your personal safety while you are here at the University of Utah.

The Department of Public Safety encourages members of the university community to use this report as a guide for safe practices on and off campus. Each member of the university community receives an email that describes this report and provides its web address (dps.utah.edu/). For more information about campus safety or this report, or to receive a printed copy of this report, please visit the Department of Public Safety at 1735 E. South Campus Drive during business hours, 8 a.m. to 5 p.m., or email the [Public Safety Director](#), or call 801-581-7619.

REGULATIONS LIBRARY

The University of Utah Regulations Library includes the text of university policies and links to university rules, procedures, guidelines, forms, and other information. Individuals can access the Regulations Library at regulations.utah.edu.

THE DEPARTMENT OF PUBLIC SAFETY

MESSAGE FROM THE CHIEF

The Department of Public Safety staff is here to serve you. We endeavor to do everything reasonable to provide for the safety and security of our students, staff, faculty, and visitors.

The University of Utah's main campus in Salt Lake City covers over 1,800 acres and supports over 30,000 students, 18,000 staff and faculty, and thousands of visitors to our three major hospitals, football stadium, sports arena, and marvelous cultural venues. In addition, the University of Utah has an extended campus, the University of Utah Asia Campus, at the Incheon Global Campus in Songdo, South Korea (the "UAC"). The UAC will ultimately support up to 1000 students. The university also has three remote research locations in Southern Utah and Montana: Rio Mesa, Range Creek and the Taft-Nicholson Center.

Whether your business here is as an undergraduate student, patron of the arts, faculty member, staff member, hospital patient, conference visitor, athletics fan, or for any other reason, we are working hard to make the campus a place in which you can comfortably live, work, learn or recreate.

Our police officers patrol the Salt

Lake City campus 24 hours a day, seven days a week. They provide any police related services needed on campus. Our officers are fully certified Utah state police officers. The police department is backed by a security staff of over 70 people. Our job is to protect the students, staff, faculty, and visitors to campus as well as the university's physical assets. We do so by monitoring and responding to alarms, controlling access to university facilities, high-visibility patrol of work spaces and parking areas, and after dark escorts to those who request it. If you need help because your car won't start, or you've locked your keys in the car, we can help with that, too.

Calls for police or security service are answered by our dispatch office, which is always staffed and ready to respond to requests for help or service. Immediate police or security response is available by calling the main dispatch number, (801) 585-COPS (2677). In emergency, call 911 (9-911 from a campus phone).

The Incheon Yeonsu Police Station in Incheon, South Korea, is responsible for addressing crimes that may occur at the UAC. It can be reached at 82-32-453-0762. In an emergency, call 1-1-2. In addition, the Incheon Global Campus Foundation provides

security guards to patrol the UAC campus 24 hours a day. The IGCF also has responsibility for providing, maintaining and monitoring security cameras throughout the Incheon Global Campus.

We offer a variety of programs and information to help the university community deal with public safety issues. If you would like a presentation on any safety or security related topic, please call Sgt. Garth Smith at (801) 585-1194 or email at garth.smith@dps.utah.edu.

Additional valuable safety and emergency information may be found at ehs.utah.edu/ and at emergencymanagement.utah.edu/.

The Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, commonly referred to as the Clery Act, requires higher education institutions to collect, report and disseminate crime data to the campus community and U.S. Department of Education; to provide timely warnings of reported crimes that represent a threat to the safety of students or employees; and to make public their campus security policies. In compliance with legislation, the University of Utah's Department of Public Safety works closely with the university administration to disseminate public safety alerts to faculty, staff and student,

produces an annual crime report, and maintains a log of reported criminal incidents.

The University of Utah Campus Security & Fire Safety Report provides information on current crime statistics and other public safety related information. Please take a moment to review the rest of this report for information on some of the safety programs offered by the university and tips on staying safe. Please enjoy your campus experience, and call on us if we may be of service.

CAMPUS LAW ENFORCEMENT

The University of Utah's policy concerning campus law enforcement can be found in the Regulations Library at Policy 1-011(III) (C) (located at: <http://regulations.utah.edu/general/1-011.php>). University of Utah Police Officers are fully trained and certified Utah peace officers, and have the same arrest, detention, and police authority as any other police officer in Utah. Additionally, university police officers have the authority to enforce University of Utah regulations. See Utah Code Ann. § 53B-3-105. University security personnel have no enforcement or arrest authority.

University of Utah Department of Public Safety/Police Department (UUDPS) works closely with other

Salt Lake City and County law enforcement agencies as well as state and federal authorities. UUDPS maintains a written mutual aid agreement between all municipal agencies and the Salt Lake County Sheriff's Office. UUDPS has primary jurisdiction on the University of Utah Campus, at University Student Apartments, and at university owned offices in Research Park. UUDPS shares responsibility with the Salt Lake Police for portions of Research Park not owned by the university, roadways adjoining campus, and the athletic complex on Guardsman Way. Off-campus offices, clinics, and remote campus sites receive police services from the local jurisdictions in which the sites are located.

The University of Utah Asia Campus falls under the jurisdiction of the Incheon Yeonsu Police Station.

TIPS FOR STAYING SAFE

The University of Utah seeks to provide a safe and enriching experience for students, employees, and others who make use of campus facilities. While the university makes efforts to keep campus safe, individuals should take steps to ensure their own and others' safety.

GENERAL SAFETY

- » Report any suspicious activity or people, crimes, defective equipment or any other concern to the Department of Public Safety. Safety hazards such as unsafe lighting should be reported to Environmental Health and Safety at 801-581-6590.
- » Be aware of your surroundings, know where you are and know where you are going.
- » Avoid walking alone. Let someone know where you are going and when to expect you.
- » Plan your walking trips. Choose a well-lighted, populated route.
- » For bike security, use a U lock to secure your bike and be sure to register your bike with the Department of Public Safety.
- » If you are uncomfortable after dark walking alone, walk with a friend or call for an after dark escort from the Department of Public Safety (801-585-2677).

STAYING SAFE AND SECURE AT THE U

IN CAMPUS BUILDINGS

- » Most crime is committed in response to an opportunity. The best prevention is to eliminate opportunities for a crime to be committed.
- » Avoid working or studying alone in a building at night.
- » Avoid stairs in remote sections of buildings.
- » Keep purses and bags locked up in a drawer or cabinet instead of underneath or on top of your desk.
- » Keep money, stamps and other valuables locked away.
- » Keep personal belongings in sight or take them with you as you move around a building.
- » Never prop doors open, even for a short time.
- » Be cautious of removing jewelry to wash hands. These items are easily lost or stolen.

IN RESIDENTIAL LIVING AREAS OR AT HOME

- » Develop a relationship with a neighbor that will encourage checking in on one another often.
- » Always lock your door, even if you intend to be gone only a moment or are just going down the hall.
- » Lock all doors and window when you are sleeping or are alone.

- » Do not allow strangers to enter your living area.
- » Keep emergency numbers stored in your phone.
- » To save a life, report a fire or a crime in progress, call 911 or 9-911 from a campus phone.
- » Do not put your address anywhere a stranger can get access, such as a hang tag or key chain.
- » Learn basic first aid.

FINANCIAL ACCOUNTS

- » Utilize a bank account rather than keeping money in your room.
- » Keep ATM, debit and credit cards in a safe place. Never reveal a PIN number to anyone.
- » Never loan your ATM card to anyone, no matter who they are.
- » When possible, use ATM cards in daylight. If that is not possible, use an indoor ATM or one in an otherwise well-lit area.

CRIME REPORTING, UNIVERSITY RESPONSE & STATISTICS

University of Utah Regulations Library Policy 1-011(III)(A)(1) (located at: regulations.utah.edu/general/1-011.php), and Procedure P1-011A(III)(A)(1) (located at: regulations.utah.edu/general/procedures/P1-011A.php) inform students and other

members of the campus community about the procedures to follow for reporting crimes. Students and others who become aware of criminal actions or other emergencies anywhere on the main campus should report these to the UUDPS. To report a crime, individuals may call the Department of Public Safety at 801-585-2677. To report emergencies, individuals may call 911 (dial 9-911 from campus phones). Individuals may also use any emergency phone located in some parking lots and public areas on campus, to report an emergency or a crime, and may also report in person at the Department of Public Safety, 1735 East South Campus Drive, Salt Lake City, Utah 84112. Individuals at the University of Utah Asia Campus should report emergencies and crimes to the Incheon Yeonsu Police Station at 82-32-453-0762 and, in the case of an emergency, dial 1-1-2. The university encourages accurate and prompt reporting of all crimes to UUDPS and other appropriate police agencies when the victim of such crimes elects to or is unable to make such a report.

Incidents reported to UUDPS will be investigated for the purpose of reducing crime, improving safety, making disciplinary referrals, and imposing criminal sanctions as appropriate. Additionally, incidents reported to UUDPS will be included in the statistical report contained in the Campus Security Report prepared annually by the university.

CRIME REPORTING, UNIVERSITY RESPONSE & STATISTICS

Incidents involving student misconduct which are investigated by UUDPS may be referred to the Office of the Dean of Students for disciplinary action. Incidents that take place in the residence halls are referred to Housing & Residential Education. Incidents involving staff misconduct may be referred to Human Resources for possible disciplinary action. Incidents involving faculty misconduct may be referred to the cognizant dean or senior vice president. ANONYMOUS REPORTING

Individuals who witness or are the victim of crime, but who wish to remain anonymous, may report the crime to the University Department of Public Safety on a confidential basis. To do so, individuals should specifically request that they remain

anonymous. The report ensures that the occurrence of the crime will be included in the university's annual report, assists the police in determining if there is a pattern of crime with regard to a particular location, method, or suspect, and enables the police, in appropriate circumstances, to alert the campus community to potential dangers. Filing an anonymous report may limit the ability of the police department to provide specific assistance or to investigate or solve a crime.

CONFIDENTIAL REPORTING

University of Utah Regulations Library Policy 1-011(III)(C)(5) (located at: <http://regulations.utah.edu/general/1-011.php>), inform students that pastoral and professional counselors working at the University Counseling Center, Women's Resources Center, Center for Student Wellness and University Hospital as the Chaplain, when acting in their professional designated roles, are not required to report crimes disclosed to them for inclusion in the annual disclosure of crime statistics. However pastoral and professional counselors are encouraged, if and when they deem it appropriate, to inform the persons they are counseling of how to report crimes on a voluntary, confidential basis for inclusion in the annual disclosure of crime statistics.

TIMELY WARNING NOTIFICATIONS

The University of Utah must provide timely warning notices to the campus community when certain crimes are reported to Campus Security Authorities (as defined by federal law) and are determined by the chief of police (or the chief's designee) to represent a serious or continuing threat to students and employees. Anyone with information warranting a timely warning should report the circumstances to the UUDPS per University Procedures P1-011A (located at: <http://regulations.utah.edu/general/procedures/P1-011A.php>). Timely warnings will generally be issued as soon as reasonably practicable after the crime has been reported to UUDPS, a determination has been made that the report is credible, and the determination has been made that the crime presents a serious or continuing threat to the campus community. Timely warnings will include sufficient information to allow members of the community to protect themselves from harm. Timely warnings will withhold the names of victims as confidential. The university may issue these warnings via postings on campus, through the Campus Alert system, through local news media, or in other ways. The individual or office responsible for issuing the warning will vary depending on how the warning is issued. For further information regarding timely warning notifications, please refer to page 24.

DAILY CRIME LOG

The Department of Public Safety Maintains a Daily Crime Log to record criminal incidents and alleged criminal incidents to students, faculty, staff and visitors. Crimes reported to UUDPS will be added to the Daily Crime log within two business days of a report. The Daily Crime log is located at <http://reports.dps.utah.edu/CrimeReport.pdf>. In addition, you can visit CrimeReports (<https://www.crimereports.com/>), a website that allows you to see reported crimes on the university's main campus on a map display. You can choose the time frame, sort for any reported class of crime, and view crimes committed on campus as well as the surrounding areas.

EDUCATIONAL PROGRAMS, TRAININGS & SERVICES

The University of Utah takes seriously the safety and security of our campus. UUDPS and other departments on campus provide various programs and trainings to facilitate the safety of students and employees. The university provides comprehensive programming intended to prevent dating violence, domestic violence, sexual assault and stalking. Several of these programs are listed below. Presentations on any campus safety, security or law enforcement topic can be arranged by contacting Sergeant Garth Smith with Community Outreach Unit of UUDPS at (801) 585-1194.

Orientation- The university educates students and employees about sexual assaults, domestic violence, dating violence and stalking through mandatory orientation of new students and new employees. These trainings are ongoing and offered consistently throughout the year.

Rape Aggression Defense (RAD)- Rape Aggression Defense is a four-week, practical self-defense course incorporating physical training and classroom education. The course, intended for women 12 years of age and older, is taught three to four times a year by certified RAD instructors at UUDPS. For more information or schedules, visit the "Campus Safety" portion of the Department of Public Safety webpage (dps.utah.edu).

Coffee with the Cops/Start by Believing- The UUDPS holds two events (Spring and Fall) at the Marriott Plaza where students, staff, faculty and visitors can come and meet with officers. The officer's hand out information in regards to crimes on campus, sexual assault resources and postcards that promote our Start by Believing campaign. That campaign is an attitude and approach of our first responders to treat victims who report sexual assaults in an appropriate and caring manner.

After Dark Escort- After dark, or in any uncomfortable situation, university security personnel or police officers will come to your main campus location and walk

or drive you to your residence hall, car, shuttle, bus, or TRAX stop. For this service, call (801) 585-2677. This service is available 24/7.

Emergency Phones (E-Phone or Blue Light phone)- Emergency phones are strategically placed on Main campus and in the Health Sciences Center in some campus walkways, parking lots, parking structures, some elevators, and other locations. These phones provide direct emergency access to U dispatchers to report an emergency. To get immediate help UPDS maintain a 24 hour communications center, and anyone on campus may summon assistance by dialing 911 (9-911 from a campus phone).

Intervening with Student in Distress- The Office of the Dean of Students, the University Counseling Center and the Center for Student Wellness teamed up to provide a training for faculty and staff on how to address disruptive behaviors that students exhibit. This training teaches faculty and staff how to identify a student in distress, how to intervene and how to report such behavior. This training is available upon request by contacting the Behavior Intervention Case Manager within the Office of the Dean of Students.

Dealing with Disruptive People Presentations- Prepared and presented by UUDPS in conjunction with University Human Resources and the Office of the Dean of Students, this presentation focuses on identifying disruptive,

threatening, or violent behaviors and taking appropriate actions when encountering individuals with these behaviors. Training is provided upon request.

Student & Family Orientation- Organized by the Office of Orientation and Leadership and offered on an ongoing basis throughout the year, UUDPS and the Office of the Dean of Students present information about crime statistics, self-defense, RAD, the After Dark Escort, E-Phones on campus, Campus Alerts, the student conduct process and other programs. Information on how students can keep themselves and their property safe is discussed. Orientation sessions are offered to international students, and are mandatory for all new and transfer students.

Campus Staff and Faculty Safety Meetings- UUDPS typically gives 10-15 presentations each year to various departments on campus. These presentations address topics ranging from specific crime-related issues to safety tips, crime prevention, and safety awareness. UUDPS will provide these presentations on request of any department on campus.

After Dark Walk- Environmental Health and Safety plans a yearly campus wide Walk in the Dark. This is a program that engages students, staff and faculty and takes preventative measures for our campus safety. The objectives of the walk are to observe and document lighting

issues, shrubbery/landscaping issues and uneven or broken pavement that may impact university community members' safety while on campus after dark.

Plazafest- This campus event is held at the beginning of fall and spring semesters. As part of Plazafest, UUDPS provides a booth staffed with police officers and security personnel who provide information to students about the department, the After Dark Escort program, personal safety and crime prevention tips, the RAD program, crime statistics, the Campus Alert System, policies for skateboard use, and other similar information.

University Student Apartments (USA) Block Party- UUDPS participates in this family event, held annually on a Saturday in the West Village Bowl. The event also includes representatives from the University's Department of Environmental Health and Safety, Student Health Services, and the Salt Lake City Police and Fire departments. UUDPS provides security personnel and police officers to:

- » Teach bicycle safety skills. UUDPS sets up a bicycle course through which children pedal their bicycles. Additionally, UUDPS personnel and officers check and help fit the children's bicycles and helmets.
- » Provide crime prevention, safety tips and information about the escort program.
- » Provide information about the neighborhood watch program.

- » Provide information about campus safety, skateboard policies and the RAD program.
- » Provide safety tips for Halloween.

Presentations for International Students- These presentations are provided by UUDPS and discuss safety, crime prevention, domestic violence, and other social issues. The presentation answers questions and discusses differences in laws and policing between the United States and other countries. The presentation is given on request of the Office of International Student Scholar Services.

Health and Wellness Fair- The Campus Health and Wellness Fair is held each October in the Student Life Center. At the fair, UUDPS maintains a booth to provide information about the Department, campus safety, RAD, crime prevention and other services the department offers. In addition, the Center for Student Wellness coordinates and runs the fair to provide information regarding healthy and safe behaviors on campus.

Early Childhood Education Center and Village Day Care Centers- UUDPS's "Officer Friendly" talks to kids about Halloween safety, bike safety and stranger-danger at least twice a year.

Greek Summit- UUDPS and the Center for Student Wellness present to fraternity and sorority members about campus safety, drugs and alcohol awareness, RAD, crime statistics and services provided by UUDPS. This is an annual event.

Active Shooter Video and Presentation- Students and employees can view a video, available at <http://www.campusalert.utah.edu/shotsfired/>. The video provides information on how to respond to an active shooter on campus and steps students and employees can take to prevent such a situation. Additionally, on request, UUDPS will show the video and facilitate a discussion on appropriate safety precautions, having a survivor mindset, and maintaining awareness of one's surroundings.

The Utah Experience- This annual program welcomes athletes to the university football program. The program features short presentations on a wide variety of topics designed to assure a successful experience for athletes on the football team. One portion of the program is presented by UUDPS and discusses appropriate behavior toward and treatment of women, the effect of drugs and alcohol on judgment, and sexual assault prevention.

Student Conduct Understanding Form- This information is provided by Housing & Residential Education as part of the student application to live on campus and focuses on the choices students make that enhance or impact their safety and their collegiate experience.

UC 101. Your Path to a Successful Start- All students at the UAC take this course in their freshman year. The class is designed as a continuation of UAC orientation. As such, important topics can be covered in greater detail. Instructors spend a full class period discussing safety issues including dating violence, domestic violence, sexual assault, and stalking. Alcohol and drug use and abuse is covered during a class on student wellness.

No reportable criminal incidents have been reported or identified for the Taft-Nicholson Research Center in Centennial Valley, Montana. For the past three years (2013, 2014 & 2015) no criminal incidents were reported to the campus security authority for the Taft-Nicholson Center. Each year, the university has requested crime statistics from Beaverhead County Sheriff's Office, but that station has failed to respond to the university's requests. The university will continue its efforts to establish a relationship with

Beaverhead County to facilitate the receipt of these statistics.

EMERGENCY EVACUATION, RESPONSE & NOTIFICATION

The University of Utah's policy on emergency evacuation and response can be found in the Regulations Library at Policy 1-011(III)(F) (located at: regulations.utah.edu/general/1-011.php) and in Procedure P1-011A(III)(D) (located at: regulations.utah.edu/general/procedures/P1-011A.php). Upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus, the university will notify the campus community. The university will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system described below, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

On at least an annual basis, the university will test the emergency response and evacuation procedures contained in Policy 1-011 and Procedure 1-011A. The University will publicize its emergency response and evacuation procedures in conjunction with this test, and will document, for each test, a description of the exercise, the date and time of the exercise, and whether the exercise was announced or unannounced.

EVACUATION

In the event of a fire, the university expects that all campus community members will evacuate by the nearest exit, closing doors and activating the fire alarm system (if one is present) as they leave. Once safely outside a building, it is appropriate to contact 911 (9-911 from a campus phone) or the Department of Public Safety at 801-585-2677. For the UAC, students should dial 1-1-2 to report the emergency situation. Students and/or staff should check in at the assembly area identified in the building emergency plan. No training is provided to students or employees in firefighting or suppression activity as this is inherently dangerous and each community member's only duty is to exit safely and quickly, shutting doors along the exit path as they go to contain the spread of flames and smoke, and to activate the alarm as they exit. At no time should the closing of doors or the activation of the alarm delay the exit from the building.

In the event of another significant emergency, the university's evacuation procedures will be influenced by the nature and magnitude and immediacy of the emergency. Evacuations may be for a single building or group of buildings, a campus neighborhood, or the entire campus. Evacuation information will be disseminated using any combination of communication mediums that may be useful given the nature of the incident. Information may

include known hazards, general direction to travel or avoid, precautions that may be taken, and where to assemble, if appropriate.

If a general evacuation is ordered, all campus members are especially advised to follow any directions given. For example, direction may be to report in at the Emergency Assembly Point (EAP) designated for that building. Alternatively, direction may be given to leave campus by foot. Such direction would be given in order to facilitate the quickest, safest movement of the campus population, and provide the best access for emergency responders.

RESPONSE

In the event of a significant emergency or dangerous situation on campus involving an immediate threat to the health or safety of students or employees, "First Responders," in consultation with the First Responders' on-duty supervisor and the designated university administrator, will confirm the existence of the emergency or situation. First Responders will come from the University Police Department, the University's Department of Occupational Environmental Health and Safety, University Facilities Operations and the Salt Lake City Fire Department in consultation with First Responders as needed, the supervisor and designated administrator will determine the appropriate segment or segments of the campus

community to receive a notification and will determine the content of the notification. The designated university administrator will initiate the Campus Alert system.

First Responders, the supervisor, and the designated University administrator are responsible for carrying out these actions.

The designated campus administrators are:

- » The Director for Emergency Management and designated staff
- » The Director of Public Safety (Chief of Police) and designated staff
- » The Sr. Chief Administrative Officer and CFO along with other designated staff

This process may differ slightly for emergencies or situations occurring at the University Hospital. Hospital staff members, hospital security, or UUDPS confirm the existence of a significant emergency or dangerous situation. The hospital's public information officer determines the appropriate segment for notification, determines the content of the notification, and initiates the notification. Notification may be via pagers, cellular phones, overhead public announcement system, the Campus Alert System, or other methods.

The university may disseminate emergency information to the larger community in a variety of ways. Some non-university organizations located in close proximity to the university receive notifications sent via the Campus Alert system. Additionally, information received by UUDPS dispatch may be shared with

Salt Lake City emergency services dispatch. The University may also place information about emergencies on the Internet at <http://www.utah.edu/> or <http://alert.utah.edu/>. University communications may disseminate information to various news media outlets.

SHELTER-IN-PLACE

Direction may also be given to "shelter-in-place". If an incident occurs and the buildings or areas around you become unstable, or if the air outdoors becomes dangerous due to toxic or irritating substances, it is usually safer to stay indoors, because leaving the area may expose you to that danger. Thus, to shelter-in-place means to make a shelter of the building that you are in, and with a few adjustments this location can be made even safer until it is safe to go outside.

If an incident occurs and the building you are in is not damaged, stay inside, seeking an interior room, until you are told it is safe to come out. If your building is damaged, take your personal belongings (purse, wallet, identification, etc.) and follow the evacuation procedures for your building (close your door, proceed to the nearest exit, and use the stairs instead of the elevators). Once you have evacuated, seek shelter at the nearest university building quickly. If police or fire department personnel are on the scene, follow their directions.

You will know to shelter-in-place as a shelter-in-place notification may come from several sources, including the Campus Alert System, UUDPS, Housing Staff members, other university employees or other emergency services personnel.

No matter where you are, the basic steps of shelter-in-place will generally remain the same. Should the need ever arise; follow these steps, unless instructed otherwise by local emergency personnel:

If you are inside, stay where you are.

- » Collect any emergency shelter-in-place supplies and a telephone to be used in case of emergency. If you are outdoors, proceed into the closest building quickly or follow instructions from emergency personnel on the scene.

- » Locate a room to shelter inside. It should be:

- An interior room.
- Above ground level.
- Without windows or with the least number of windows. If there is a large group of people inside a particular building, several rooms may be necessary

- » Shut and lock all windows (tighter seal) and close exterior doors.
- » Turn off air conditioners, heaters, and fans if possible.
- » Close vents to ventilation systems if you are able.
- » Make a list of the people with you and ask someone (House Staff, faculty, or other staff) to call the list in to UUDPS so they know

where you are sheltering. If only students are present, one of the students should call in the list.

- » Turn on a radio or TV and listen for further instructions, if it is reasonable to do so.
- » Make yourself comfortable.

SECURE-IN-PLACE

You should secure-in-place during violence, threat of violence, when an active assailant has been reported or is nearby, or otherwise when instructed to do so by Campus Alerts and emergency personnel. When it is necessary to secure-in-place, you will be the safest by placing a locked door or other barricade between you and the associated threat. To minimize vulnerability, turn off lights, silence phones, draw blinds, and move away from windows. Await further instructions from Campus Alerts and emergency personnel. Do Not leave until an "All Clear" is received.

CAMPUS ALERT SYSTEM

The University of Utah maintains a notification system, known as the "Campus Alert" system. The Campus Alert system utilizes the university homepage (www.utah.edu/), an Emergency Information and Alerts website (alert.utah.edu/), email alerts, text message alerts, and push notifications to the U Heads Up! mobile application to provide

students, employees, and others with information about unforeseen events and emergencies on campus, such as snow closures, building closures, significant traffic interruptions, severe power outages, gas leaks, and threats such as bombs or gunmen. Students and employees automatically receive email alerts from the Campus Alert system and are unable to 'opt-out' of email alerts. Students, families, and employees may also sign up to receive alerts via landline telephone, cellular telephone, both landline and cellular telephone, and text messaging. Students, families, employees and campus visitors may also download the U Heads Up! mobile application to a smartphone to receive push notifications from the Campus Alert system.

CAMPUS ALERT TESTS : FALL 2015 – SPRING 2016

Overview

The Campus Alert system at the University of Utah is a third-party hosted email and text messaging system for emergency communications. The university participates in two annual Campus Alert system tests (fall and spring). The Fall test is preceded by an awareness campaign to ensure that new and

returning students have the correct contact information in Campus Alert. The spring test is in conjunction with ShakeOut – the annual statewide earthquake exercise.

Statistics and Analysis

MESSAGES SENT

Exercise Date	Messages to Contacts	Emails	SMS (Text)
21 Oct 2015	115,258	91,082	57,588
21 Apr 2016	77,868	86,517	55,470

* Three distinct messages were sent for the April exercise (Exercise START, EVACUATE and ALL CLEAR. Each message had the same number of contacts, emails and text messages)

Contacts in the Campus Alert system may have indicated more than one email address. Thus, a single contact may receive more than one notification, which accounts for the number of contacts being higher than the number of messages sent.

Survey Responses

Comparison of alert test delivery expectations (fall 2015 vs. spring 2016).
All values are percentages.

SURVEY QUESTION	FALL 2015	SPR 2016	TREND

Analysis of survey responses regarding delivery expectation

- » Positive: We are trending UP in email delivery.
- » Positive: We are trending UP in “less than 3 min” delivery and DOWN in 5 min delivery, indicating better delivery.
- » Positive: We are trending UP in the use of the mobile app to receive alerts.
- » Negative: We trended DOWN in text alerts.

Social Media Integration

Social media remained relatively low and flat for engagement in the Spring 2015 and Fall 2016 exercises.

Mobile app integration

The U Heads Up mobile app was introduced during the Fall 2014 semester. It is an iOS and Android app that provides emergency response guide information and push notifications from Campus Alert for the segment of the campus population that cannot receive Campus Alerts by text or email. By Fall 2015 the app was migrated to newer platform and consolidated with the efforts of Health Sciences Emergency Management.

How long did it take for you to receive the alert in the U Heads Up! Mobile App (It was sent at 10:15 a.m.).	SPRING 2015	SPRING 2016	TREND
Less than 3 minutes	11.72	22.35	+ 10.63
3 to 5 minutes	2.35	7.65	+ 5.3
N/A I did not receive an alert via the mobile app	83.97	65.56	- 18.41
Other	2.41	4.45	+ 2.04

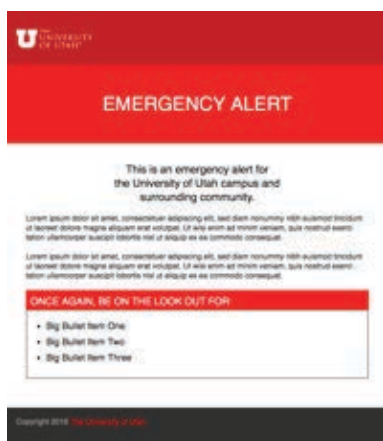

While the “3 to 5 minute” delivery time increased slightly, the “less than 3 minutes” delivery time doubled, indicating greater participation and delivery with the mobile app.

Branded Email Templates

The following language is posted for the public at <http://www.utah.edu/campus-notifications>.

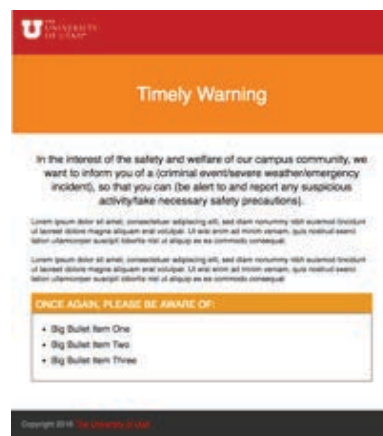

The university's campus wide notification system is designed to deliver important campus information in a timely manner via email. Alerts are color coded according to the level of importance — orange for “timely warning” information and red for emergencies requiring immediate action. When you receive an alert, we encourage you to spread the word. Thank you for taking the time to familiarize yourself with this system and making our campus a safer place for everyone.

RED - EMERGENCY ALERT

“Emergency Alerts” are sent by both email and text, and are reserved for critical emergencies requiring immediate action — including natural disasters and other

situations posing a direct and immediate threat to personal safety. This alert or subsequent messages will include detailed safety instructions.

ORANGE – TIMELY WARNING

On occasion, you might see an orange “Timely Warning” alert informing you of a significant issue that could affect your safety. Timely warnings are sent by both email and text and issued as a result of a Clery Act crime that has occurred on Campus Property, Non-Campus Property and Public Property as those terms are defined on page 15 of this report. This alert will include detailed safety instructions.

TIMELY WARNING NOTIFICATIONS

The University of Utah’s policy on timely warning can be found in the Regulations Library at Policy 1-011 (III) (A)(2) (located at: regulations.utah.edu/general/1-011.php) and in Procedure P1-011A(III)(E) (located at: regulations.utah.edu/general/procedures/P1-011A.php).

The university will issue timely warnings to the campus community whenever a crime presents a serious or continuing threat to university students and/or employees and the crime has occurred on Campus Property, Non-Campus Property and/or Public Property “Clery Geography” as those terms are defined on pages 15 of this report.

As a general matter, crimes of violence and sexual crimes involving a suspect who has not been apprehended and who is unknown to the victim will pose a threat to the campus community. Crimes that occur between individuals who know each other might or might not pose a risk to other members of the campus community. Certain property crimes might also pose a threat to the campus community.

Each crime is considered on a case-by-case basis to determine if a timely warning is necessary. Upon learning of a serious crime within Clery Geography, the Chief of Police (or his/her designee) will determine whether the crime poses a serious or continuing threat to the campus community. Factors to consider include the nature of the incident,

when and where the incident occurred, when the incident was reported, the amount of information known about the incident, and whether the alleged perpetrator poses a risk to other members of the campus community. If the crime presents a significant and immediate threat, the Chief of Police will initiate the emergency response protocol. Otherwise, for any crime that poses a risk to the campus community, the Chief of Police (or his/her designee) will consult with representatives of the Office of General Counsel, the University Communications, and other university departments, as appropriate, to determine when and how to issue a timely warning. Any campus administrator that learns of a campus crime and has reason to believe an incident poses an ongoing threat to the campus community will bring the matter to the attention of UUDPS and/or the Office of General Counsel to initiate a timely warning consideration.

Notice of a crime will generally be provided as soon as reasonably practicable after the crime has been reported to UUDPS, a determination has been made that the report is credible, and the determination has been made that the crime presents a serious or continuing threat to the campus community. Timely warnings will be issued as soon as pertinent information is available. The University Communications Office, in consultation with UUDPS, the Office of General Counsel, and other university departments, as appropriate, will craft

and issue the timely warning.

Timely warnings are designed to inform the campus community about threatening situations and to provide sufficient information to allow members of the community to protect themselves from harm. Timely warnings will typically include, the date, time and nature of the offense, a brief description of the known circumstances, a physical description of the suspect(s), actions taken by law enforcement, a request for witnesses to contact UUDPS and any appropriate crime prevention tips and safety advice. Timely warnings will not identify the victim. Timely warnings might exclude details of the offense that are unnecessary to protect the campus community and could compromise the law enforcement investigation.

University Communications, in consultation with other university departments will determine the appropriate method(s) for distributing a timely warning to ensure it reaches the entire campus community. The methods will depend upon the nature of the threat to the campus community. Timely warnings can be delivered through various methods, including but not limited to, text, email, flier, electronic bulletin board and/or by website postings.

EMERGENCY NOTIFICATIONS

The University of Utah's policy on emergency notifications can be found in the Regulations Library at Policy 1-011 (III)(F)(1)(a)(b) (located at:

regulations.utah.edu/general/1-011.php).

The University utilizes a "Situation, Triage & Assessment Team (STAT)" function that consists of the following business units to report, evaluate, and mitigate emergencies that occur on or effect campus. Those business units are UUDPS, Campus and Hospital Emergency Management, Facilities, Dean of Students Office, Office of General Counsel, Housing, Faculty, Occupational and Environmental Health, and Safety and Administration. Upon confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students or employees occurring on campus, the University will notify the campus community using the procedures described in a University Procedure P1-011 accompanying this Policy. The "STAT" will determine the appropriate segment or segments of the campus community to receive a notification, determine the content of the notification, and initiate the notification system.

The University will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

MISSING STUDENT NOTIFICATION

The University of Utah's policy and procedures regarding missing student notification can be found in the Regulations Library at Policy 1-011(III)(G) (located at: regulations.utah.edu/general/1-011.php) and in Procedure P1-011(III)(F) (located at: regulations.utah.edu/general/procedures/P1-011A.php). When a student has been missing for 24 hours; students, employees, and other individuals should make a report to the University Department of Public Safety/Police (801-585-2677), to Housing & Residential Education (801-587-2000) or to University Student Apartments (801) 585-5690. Any person to whom a missing student report is made should immediately refer the matter to UUDPS.

Students who reside in on-campus student housing facilities have the option of identifying a contact person or persons whom the university shall notify within 24 hours of a determination that the student is missing, if the student has been determined missing by UUDPS. This contact information will be registered confidentially and will be accessible only to authorized campus officials. The information may not be disclosed outside the university except to law enforcement personnel in furtherance of a missing person investigation. Students residing in University Student Apartment ("USA") properties may

register a missing person contact on their housing applications and, upon moving in, on an emergency card provided by USA. Students residing in Housing & Residential Education ("HRE") properties may register a missing person contact on their housing applications. To learn more about registering a missing person contact, students residing in USA properties should call 801-581-8667 and students residing in HRE properties should call 801-587-2002.

If a student is under 18 years of age and is not emancipated, in addition to notifying any contact person designated by the student, the university is required by law to notify a custodial parent or guardian within 24 hours of the determination that the student is missing. The university will notify the local law enforcement agency when any student who lives in on-campus student housing has been determined to be missing for 24 hours.

SECURITY OF AND ACCESS TO CAMPUS FACILITIES

SECURITY OF AND ACCESS TO CAMPUS FACILITIES

The University of Utah's policy on security of and access to campus facilities can be found in the Regulations Library at Policies 1-011(III)(B), 3-113, 3-234, 4-005 (located at: regulations.utah.edu/general/1-011.php) and in Procedure P1-011(III)(B) (located at: regulations.utah.edu/general/procedures/P1-011A.php). The University of Utah manages building access according to the building type and purpose and considers security in maintenance of campus facilities.

University Policy 4-005 addresses the use and security of university property. The policy provides that administrative, college, and departmental offices of the university generally are open to the public from 8:00 a.m. to 5:00 p.m., Monday through Friday, and that certain offices and departments are open at other times to meet particular needs. The majority of buildings at the University are secured when not open to the public. The Department of Public Safety is responsible for locking and unlocking building entrance doors at specified times each day. See Policy 3-234. The Department remotely locks some buildings, while others are physically locked by the security staff. Random foot patrols of buildings on campus

are made by security personnel and police officers. Under Policy 4-005, the Security Officer will investigate night use of all buildings to ascertain whether persons in the buildings are so authorized.

The university maintains some academic and research facilities for 24-hour access by students and staff. Policy 4-005 provides that it is the responsibility of all personnel using buildings after regular hours to see that lights are turned off in the rooms they are vacating and that office doors and outside doors are secured.

The university takes steps to ensure the safety of residential living areas. Entrances to the residence halls are locked on a 24 hour basis. Residence hall staff members conduct nightly rounds. Access to residence halls is by university ID card, and only students living in a specific building have access to the building. Doors are locked 24 hours a day at Officers Circle historical housing, and residents have a separate key for entrance. All University Student Apartments and Medical Towers apartments are individually locked and residents are provided with keys for entrance to their apartments.

Some buildings on campus have restricted-access areas. Normally these areas are closed to the public because of the nature of the research performed or because of

valuable documents stored therein. Only authorized students and staff are allowed in these areas.

The Sr. Chief Admin Officer & CFO is responsible for providing the resources necessary for maintaining a safe and secure campus environment. Units assigned direct responsibility includes Public Safety, Facility Operations, Risk and Insurance Management and Environmental Health and Safety. These units work together to conduct annual campus risk surveys to identify safety and security vulnerabilities and to implement corrective actions. These units also provide opportunities for the campus community to report problems and concerns directly, such as 24 hour telephones and online reporting forms.

At the Utah Asia Campus, the Incheon Global Campus Foundation provides security guards to patrol the campus 24 hours a day. The IGCF also has responsibility for providing, maintaining and monitoring security cameras throughout the Incheon Global Campus. The university's UAC building is open from 7 a.m. to 10 p.m. Access is only available after hours with an ID card.

ALCOHOL AND DRUGS ON CAMPUS

The University of Utah is committed to maintaining a safe and healthy environment for the campus community. The university publishes annually to the university community its Drug and Alcohol Prevention Plan or DAAPP. The DAAPP describes the legal sanctions under federal, state and local law for the unlawful use, possession, or distribution of illicit drugs and alcohol. It includes a description of the health risks associated with the use of illicit drugs and alcohol. The DAAPP includes a description of the drug and alcohol programs that are available to employees and students. And, the DAAPP provides clear statements concerning the university's discipline for students and employees who violate the university's drug free campus policies. EDUCATIONAL PROGRAMS, TRAININGS & SERVICES

The university provides a variety of drug- and alcohol-abuse education programs.

Prime for Life- Prime for Life is an evidence-based alcohol and drug program for people of all ages. It is designed to gently but powerfully challenge common beliefs and attitudes that directly contribute to high risk alcohol and drug use. The content of this program is carefully selected to achieve specific attitudinal and behavior change. Information is presented objectively and persuasively using documented research findings rather than opinion, exaggerations or scare tactics.

Under the Influence- Under the Influence is an online course made up of 10 lesson modules. This is a self-help course in which a student will complete a confidential alcohol eCHECKUP TO GO self-assessment in Lesson 1. The eCHECKUP intervention allows the program to provide feedback and additional resources for the student throughout the course.

Marijuana 101- Marijuana 101 is an online 6-lesson course that specifically addresses marijuana use and includes the eCHECKUP TO GO brief intervention for marijuana. The Marijuana 101 course also includes a 30-day Part 2 so that students can measure changes in attitudes and behavior.

Greek Summit- Greek Summit is an annual one day new-member education program for students who join the campus fraternity and sorority community. The Center for Student Wellness provides comprehensive education on alcohol use and abuse, sexual violence prevention, sexual health, and bystander Intervention techniques for each of these topics.

Student & Family Orientation- Organized by the Office of Orientation and Leadership, the Center for Student Wellness and the Office of the Dean of Students present information about the consequences for excessive drinking, why the University of Utah is a dry campus, statistics on drinking behaviors of current students, signs of alcohol poisoning and how to help peers through bystander intervention. Information on how students can keep themselves and other members of their community safe is discussed. Orientation sessions are offered to international students, families and are mandatory for all new and transfer students.

Student Leader Trainings- The Center for Student Wellness engages trainings of many different student leader groups (ie. Housing & Residential Education Resident Assistants, Orientation Leaders) which consists of ongoing training and education sessions on campus safety, general health topics (sleep health, nutrition, stress management, alcohol/drug use and abuse, and policy enforcement), sexual health, healthy relationships, sexual and relationship violence prevention/education, and bystander intervention techniques.

Assessment & Referral Services- Assessment & Referral Services is a University of Utah Clinic within the Department of Psychiatry that provides high-quality, objective substance abuse assessments and referrals for individuals with possible substance abuse problems.

UC 101. Your Path to a Successful Start- All students at the UAC take this course in their freshman year. The class is designed as a continuation of UAC orientation. As such, important topics can be covered in greater detail. Alcohol and drug use

and abuse is covered during a class on student wellness.

SUBSTANCE FREE SOCIAL PROGRAMMING

There are many different campus departments who host on-campus social programs that are substance free. These programs provide alternate options for students to engage with the campus community, especially during late night weekend hours. Events include Crimson Nights and other late night programs hosted by the Union Programming Council, Late Night and Weekend programming hosted by the Programming Assistants within Housing & Residential Education, and events put on by the Programming Board through the Associated Students of the University of Utah. The University of Utah also offers Alternative Fall and Spring Break programs for week long off campus learning experiences.

PRIMARY PREVENTION AND AWARENESS PROGRAMS

The university offers primary prevention and awareness programs for all incoming students and new employees. These programs inform students and employees about the university's prohibition on all forms of sexual misconduct including domestic violence, dating violence, sexual assault and stalking. Participants are informed about the Utah statutory definitions of these offenses as well as the Utah's legal definition of "consent" in the context of sexual activity. The programs provide information on risk reduction to recognize warning signs of abusive behavior and how to avoid potential attacks. And, the programs inform students and employees about the safe and positive options for bystander intervention that

may be carried out by individuals to prevent harm or the occurrence of one of these sexual offenses to another person. Additionally, the Center for Student Wellness offers a Bystander Intervention Trainings, called “Step In Speak Up,” which educates students on campus sexual misconduct and broad approaches to Bystander Intervention as well applied skill development and practice related to a wide range of campus sexual misconduct related intervention scenarios. Students and employees are provided with copies of University policy 1-012 and Procedure 1-012.

The university also offers ongoing prevention and awareness campaigns for students, staff and faculty, including the information provided during the primary prevention and awareness programs as described above.

THE UNIVERSITY OF UTAH'S POLICY ON SEXUAL MISCONDUCT AND OTHER FORMS OF GENDER BASED DISCRIMINATION

It is the policy of the University of Utah (Policy 5-210) to maintain an academic and work environment free of sexual harassment for students, employees, and participants. The university prohibits all forms of sexual misconduct including sexual harassment, sexual assault, sexual violence, domestic violence, dating violence and stalking.

Sexual Misconduct is conduct that includes sex-based harassment (gender-based or sexual harassment), stalking, dating or domestic violence, and sexual assault. Sexual Misconduct

is a form of sex discrimination. It is a violation of Title IX of the Education Amendments Act, is strictly prohibited by university policy and if occurs, may subject the perpetrator or responsible party to discipline, up to and including expulsion, job termination, criminal prosecution and/or civil penalties. University policies that prohibit discrimination and sexual misconduct are intended to protect and apply to all persons in our university community, regardless of gender, sexual orientation, gender identity/expression, race, national origin, (including citizenship or alien status) color, religion, status as a person with a disability, or veteran's status. The university is obligated to investigate reports of sexual misconduct that occur on campus or that affect campus environment. For example, if a student reports that another student, employee, or other university participant sexually assaulted him/her — even if the assault was committed off-campus — because the victim may feel unsafe or unable to continue to participate in his/her academic endeavors because of the alleged assault, ongoing harassment, or fear of retaliation. The university will take appropriate measures to mitigate ongoing concerns of safety and harassment and will investigate and resolve such matters pursuant to Policy 5-210.

Unwelcome Conduct is conduct that the recipient did not request or invite which the recipient considers as undesirable or offensive.

Sex-based harassment is unwelcome and unwanted conduct and includes gender-based harassment and sexual harassment.

Gender-based Harassment is unwelcome conduct of a nonsexual nature based on an individual's actual or perceived sex, including conduct based on gender identity, gender expression, and nonconformity with gender stereotypes.

Sexual Harassment is prohibited and defined by University Policy 5-107, *Sexual Harassment and Consensual Relationships*, as unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature when:

- » Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, education, living environment or participation in a university activity.
- » Submission to or rejection of such conduct by an individual is used as the basis for or a factor in decisions affecting that individual's employment, education, living environment, or participation in a university activity.
- » Such conduct has the purpose or effect of unreasonably interfering with an individual's employment or educational performance or creating an intimidating, hostile, or offensive environment for that individual's employment, education, living environment, or participation in a university activity.

Examples of Sexual Harassment include unwelcome or unwanted:

- » Intentional touching, hugging, patting, kissing, squeezing, tickling
- » Sexual comments, joke references,

stereotyping, ridicule

- » Pictures, email, texts, materials or electronic correspondence with content that are sexually explicit
- » Repeated requests for a date, after being refused
- » Ogling or leering, making sexual comments about an individual's body
- » Requests or demands (implied or stated) for sexual favors in exchange for workplace or educational advantages, such as professor to student, boss to subordinate, coach to student athlete, or any university relationship where there is a power imbalance between the parties
- » Any act of stalking, dating/domestic violence, sexual exploitation, or sexual assault as described below

Consent. University Policy 1-012 defines consent as affirmative and freely given permission to sexual activity. A victim can express consent, or lack of consent, through words or conduct. Consent is not given where the perpetrator overcomes the application of force, violence, concealment or surprise. A victim has not consented when he or she is unconscious, unaware that the act is occurring, or is physically unable to resist. Individuals under the age of 14 cannot consent to sexual activity. A victim has not consented where the perpetrator intentionally impairs the victim by administering any substance without the victim's knowledge. For a non-exhaustive list of situations in which consent has not been given, see Utah Code Ann. Sec. 76-5-406.

Retaliation is an adverse action, treatment, or condition taken against an individual for complaining of discrimination (which includes any act or acts of Sexual Misconduct) or for participating in a discrimination complaint process, regardless of the outcome of the investigation or complaint. This means that if you report that you or another person have been subjected to prohibited discrimination or harassment, serve as a witness, or otherwise participate in a discrimination complaint process, you cannot be subjected to Retaliation for that participation.

IF YOU ARE SEXUALLY ASSAULTED...

Find a safe place. Call 911 or if on campus, 5-COPS. If at the UAC call 1-1-2.

Get medical attention. Medical attention should be sought as soon as possible. This is necessary to mitigate the risk of sexually transmitted diseases or pregnancy and to determine the existence or extent of, and to treat, any physical injury. Additionally, forensic evidence can be collected which could help a law enforcement investigation. You will not be required to pay for a physical examination and medical attention, **whether or not you file a police report.** The University Hospital and Clinics utilizes nurses who are highly trained in performing medical and forensic examinations and interviews of sexual assault victims.

Preserve evidence. Preserving physical evidence can be key to identifying the perpetrator and adjudicating a sexual assault case. Ideally a victim of sexual assault should not wash, douche, use the toilet, or change clothing prior to a medical/legal exam. Even though you may not choose to file a report with the police or cooperate with a prosecution, preserving any physical evidence may provide valuable information should you later determine you do want to proceed with prosecution.

Consider reporting the incident. Individuals are encouraged, but not required, to file a police report. Victims of a sexual assault may request any University Official, including officials in the offices of Human Resources, Academic Affairs,

Student Affairs and the Office for Student Equity and Diversity, to assist them in notifying law enforcement authorities about a sexual assault. If so requested, the official/office shall provide such assistance and will help to guide the victim through the available options and support the victim in his or her decision.

An assault or other forms of sexual misconduct should be reported to the university Police Department (801-585-2677), the Office of Equal Opportunity (801-581-8365), and/or the Dean of Students Office (801-581-7066) and/or to the Housing and Residential Education Office (801-587-2002). Students and employees at the UAC should report rape and other sexual offenses to the Incheon Yeonsu Police Station at 82-32-453-0762 and, in the case of an emergency, dial 1-1-2. Filing a report ensures that the victim of sexual misconduct receives the necessary medical treatment and tests at no expense to the victim. It also provides for the opportunity to timely collect evidence helpful in a prosecution which cannot be obtained later. Finally, reporting will make the victim aware of resources available for confidential counseling from counselors specially trained in the area of sexual assault crisis intervention.

An assault or other form of sexual misconduct may also be reported to a university professional or pastoral counselor such as the University Counseling Center, Women's Resource Center, Center for Student Wellness, or with the University's Victim Advocate. Confidentiality

will be honored when speaking to these counsellors unless disclosure is specifically required by law (e.g., reports of child abuse).

Privacy. The university will protect the privacy of victims and other necessary parties related to a sexual assault. Privacy will be strictly respected insofar as it does not interfere with the university's legal obligation to investigate allegations of misconduct, to take corrective action, or as otherwise provided by law. The university will complete publicly available record-keeping as required by the Clery Act without including identifying information concerning the victim. The university will also maintain privacy regarding any accommodations or protective measures provided to the victim to the extent that providing such privacy will not impair the ability of the university to provide the accommodations or protective measures.

Filing a report. Filing a police report will not obligate the victim to pursue a complaint through the criminal process, nor will it subject her/him to scrutiny or judgmental opinions from officers. Students and employees may request any campus authority to assist them in notifying law enforcement authorities. When a sexual assault victim contacts the University Police Department, the Police Department will notify the Office of Equal Opportunity and Affirmative Action and/or the Office of the Dean of Students. Community members also have the option to file a complaint directly with the OEO/AA. To file a complaint you must complete the Discrimination

Complaint Form found here: <http://oeo.utah.edu/wp-content/uploads/sites/9/2015/10/Discrimination-Internal-Complaint-Form-7-1-15-FINAL.doc>

Investigation: The victim of a sexual assault may choose for an investigation to be or not to be pursued through the criminal justice system and through a university disciplinary process (for students, faculty or staff), or only the latter. Victims may choose not to proceed as a complainant in the disciplinary process. However, in some cases, depending on the severity of the alleged offense and the university's obligation to ensure the safety of its community, the University may be required to investigate a report of sexual misconduct without participation/involvement from the victim. A university representative from the Victim Advocate Office, Student Wellness Center, University Department of Public Safety/Police or the Office of the Dean of Students can guide the victim through the available options and support the victim in his or her decision. The Dean of Students at the UAC can guide victims at the UAC through the available options and provide support. Under certain circumstances and for the safety of the university community, the university may be required to initiate an investigation even without victim cooperation.

Resources: Available University and community resources are listed at the end of this report including counseling options, mental health resources, health resources, victim

advocacy resources, visa and immigration assistance, financial aid, and legal assistance.

COURT ORDERS

Where applicable, the university police will enforce orders of protection, no contact orders, restraining orders, stalking injunctions or similar lawful orders issued by a criminal, civil or tribal court.

UNIVERSITY DISCIPLINARY PROCESS

The university proceedings involving a disciplinary process will include a prompt, fair and impartial investigation and resolution process. This process will be completed within reasonably prompt timeframes which may be extended for good cause with written notice to the accuser and the accused. Proceedings will be conducted in manner consistent with university policy and transparent to the accuser and the accused. Timely notice of meetings will be provided wherein the accused, accuser, or both may be present. The accuser, the accused and appropriate officials will be provided with access to any information that will be used during informal and formal disciplinary meetings and hearings. Proceedings will be conducted by officials who do not have a conflict of interest or bias for or against the accuser or the accused.

Investigators and hearing board members are trained annually on issues related to sexual assault, dating violence, domestic violence and stalking, and taught how to conduct an

investigation and hearing process that protects the safety of the victim and promotes accountability.

This process provides that:

- » The accuser and the accused each have the right to due process which includes the right to be heard, the right to a decision and review by impartial persons or bodies, and a right to adequate notice.
- » The accuser and accused have the right to be accompanied by an advisor of their choice to any meeting or institutional disciplinary proceeding; however, the University may establish restrictions regarding the extent to which the advisor may participate in the proceedings as long as the restrictions apply equally to the accuser and the accused.
- » The University of Utah adjudicates conduct cases based on the preponderance of evidence standard.
- » The accuser and the accused will be notified simultaneously in writing of the outcome and results of any disciplinary proceedings.
- » The accuser and the accused each have the right to appeal the outcome of the hearing and will be notified simultaneously in writing of the final outcome after the appeal is resolved.

Sexual assault, domestic violence, dating violence and stalking may be found to be criminal acts which may also subject the perpetrator to criminal and civil penalties under federal and state law.

The conduct process described above shall be utilized for students at the UAC who have disciplinary issues. The Dean of Students Office at the main campus will collaborate with the leadership team at the UAC to facilitate a student behavior process via appropriate electronic methods.

SANCTIONS

The university may impose sanctions on the accused if there is a cause finding to an OEO/AA investigation. These possible sanctions are:

- » Dating Violence- warning, probation, payment of restitution, community service, education requirements, no contact order, housing restriction, suspension from 1 semester to 5 years, dismissal, and termination of employment.

PROTECTIVE MEASURES

The university provides individuals involved in sexual misconduct cases assistance to ensure an ongoing safe living and learning environment, and they are free from retaliation. FACULTY AND STAFF MEMBER RESPONSIBILITY TO REPORT

Faculty and staff members have a legal responsibility to stop prohibited discrimination and sexual misconduct. If you become aware of sexual harassing or sexual misconduct, even if the individual involved does not wish to take any action, note the following obligations under University Policy 5-210:

- » Any university representative who is contacted by an individual with a sexual harassment or discrimination issue shall advise that individual of the OEO/AA and the availability of University complaint Procedures as contained herein.
- » Once informed of an issue related to sexual harassment or discrimination, the supervisor, chair, dean or other representative of the university shall immediately inform the OEO/AA.

If you receive credible information about a crime on campus, you must report it to the Office of the Dean of Students or the Department of Public Safety to be disclosed in the annual Clery Report. It is not necessary for the crime to have been investigated nor must a finding of responsibility have been made to disclose the statistic. Professional and Pastoral Counsellors are exempt from this Clery reporting obligation.

UNIVERSITY CONSENSUAL RELATIONSHIPS

OFF-CAMPUS STUDENT ORGANIZATIONS

The University of Utah's policy concerning the monitoring and recording of criminal activity at off-campus locations of officially recognized student organizations can be found in the Regulations Library at Policy 1-011(III)(D) (located at: <http://regulations.utah.edu/general/1-011.php>). No provisions beyond normal local law enforcement efforts are made to monitor any off-campus locations of student organizations officially recognized by the university, except for the fraternity and sorority community as outlined by Policy 6-402 (located at: <http://regulations.utah.edu/academics/6-402.php>).

FRATERNITY AND SORORITY LIFE

The Office of the Dean of Students at the University maintains regular contact with recognized fraternity and sorority organizations through the Assistant Dean of Students. The Office of the Dean of Students and the University Police also maintain a working relationship with the Salt Lake City Police Department.

The University of Utah hosts 10 national men's fraternity and three national women's sorority chapters. Thirteen of these chapters own and manage houses in which members may reside. These properties are directly adjacent to the university and are governed by each chapters' national organization and the City of Salt Lake as well as the University of Utah through the Greek Council Constitution and Bylaws. Criminal activity at recognized fraternity and sorority residences is monitored and recorded by the Salt Lake City Police Department, not the University Police Department. Additionally, local law [Salt Lake City Ordinance 21A.36.150] requires either the university or fraternities and sororities to fund a two-officer roving patrol on Friday and Saturday nights. The patrol is to monitor fraternity and sorority compliance with "all applicable city and county ordinances, state laws, and college or university regulations."The officers

on the roving patrol send a report on the patrol to the Assistant Dean of Students. The Assistant Dean of Students maintains records of all citations and infractions issued by the Salt Lake City Police Department

Local law [City Ordinance 21A.36.150] also requires the university to have specific regulations governing fraternities and sororities. Among these, regulations require fraternities and sororities to register parties with the Assistant Dean of Students, prohibit consumption of alcohol on fraternity or sorority property by individuals under age 21, to provide alternative nonalcoholic beverages, to hire uniformed officers for gatherings of 60 or more and require all gatherings to end by 11 p.m. (12 a.m. on a Friday or Saturday before any legal holiday). Fraternities and sororities are also required to review City Ordinance 21A.36.150 and provide an up-to-date risk management policy to the Assistant Dean of Students on an annual basis. The Assistant Dean of Students compiles and maintains an annual certification record that is received by the city annually. This certification outlines all ways in which the University of Utah complies with and promulgates the requirements outlined in City Ordinance 21A.36.150.

ANNUAL FIRE SAFETY REPORT

All reports of fires in, on, or around campus buildings are maintained in a database within the University's Department of Environmental Health and Safety. The data collected from these reports includes, but is not limited to, the building name; cause of the fire; number of persons who received injuries as a result of the fire; deaths caused by the fire; and the dollar value of property damaged by the fire.

DESCRIPTION OF STUDENT HOUSING FIRE SYSTEMS

The university operates two on-campus student housing options: Housing & Residential Education facilities ("HRE facilities") and the University Students Apartments facilities ("USA facilities").

UAC students, as well as students from the other Incheon Global Campus institutions (GMU, Ghent and SUNY) may stay in student housing that is owned, operated and controlled by the Incheon Global Campus Foundation (the IGCF). The IGCF is responsible for complying with all South Korean fire safety laws and regulations. Students who wish to know more about housing fire safety systems, IGC fire safety policies and rules, fire safety education and training programs, fire safety drills, and evacuation protocols, and any fire statistics for the Incheon Global Campus housing should contact the IGCF at +82-32-626-0114.

HRE FACILITIES

All Heritage Commons Residence Halls are equipped with fire alarms and full fire sprinkler systems.

- The building alarms sound when a smoke detector in the main corridor of the building is activated or a sprinkler head detects heat or is broken.
- Each individual bedroom and all common areas are equipped with smoke detectors and sprinkler heads.
- Interior room/apartment alarms do not sound the entire building alarm when activated.
- Sprinklers activate building alarms.
- Smoke detectors activated in an ADA room sound the building alarm and an automated phone message is sent to the on-call HRE staff member, who reports to the location of the alarm with fire personnel.
- Environmental Health and Safety technicians enter each space monthly to ensure that all smoke detectors are functioning properly.
- All HRE apartment buildings are equipped with fire extinguishers and fire alarms.
- Individual bedrooms and common areas in all HRE apartments are equipped with smoke detectors.
- All HRE Apartments, have full sprinkler systems. [Exceptions: Officers Circle and Downtown Commons].

USA FACILITIES

- » North and East Courts: Each apartment is equipped with a fire extinguisher that is located in either the kitchen, living room, or inside the stairwell. Each apartment is also equipped with a battery operated smoke detector.
- » South Courts: Each apartment is equipped with a fire extinguisher

that is located in either the kitchen, living room, or the bottom and top of the stairwell. Each apartment is also equipped with a battery operated smoke detector.

- » Medical Towers Townhouses and Fort Douglas Houses: Each unit is equipped with a fire extinguisher that is located in the kitchen. Each unit also has a battery operated smoke detector on every floor.
- » North and South Medical Towers: Each floor is equipped with a fire extinguisher that is located in the interior corridor. Each apartment and interior corridor is equipped with fire sprinklers for the purpose of fire suppression. The fire sprinkler will not activate from the presence of smoke alone. The fire sprinkler is activated by excessive heat. The fire sprinkler could activate if tampered with. Each floor and apartment is equipped with a hard wired smoke detector and integrated alarm system.
- » Additional Information on Fire Extinguishers: It is the resident's responsibility to know where fire extinguishers are located in their apartment or building. If a fire extinguisher is used, residents are responsible to notify the Maintenance Office immediately (801-581-8668) Extinguishers are recharged at no cost The University Fire Marshall or Maintenance staff inspect fire extinguishers at least annually.
- » Additional Information on Smoke Detectors: It is the resident's responsibility to advise the Maintenance Office whenever their smoke detector is inoperable; replacement batteries are available at the Maintenance Office at no charge.

FIRE SAFETY POLICIES AND PROCEDURES

The university has policies and procedures relating to fire safety. Below is a discussion of policies and rules regarding portable electronic appliances, smoking, and open flames in student housing facilities; procedures for evacuating student housing facilities in the case of a fire; and policies on fire safety education and training programs provided to students and employees.

It is against the University's Student Code to intentionally set off a fire alarm, report fire, or tamper with a fire extinguisher or other emergency equipment, except when done with the reasonable belief in the existence of a need. It is unlawful to interfere with any fire equipment apparatus, to use a fire extinguisher or other fire protection equipment for other than its intended purpose.

HRE Policies and Rules related to fire prevention can be found at <http://housing.utah.edu/living-the-u/resident-policies-responsibilities/>

USA Policies and Rules related to fire prevention can be found at www.apartments.utah.edu/residenthandbook.html

Additional information related to, kitchen fire safety, smoking, hallway obstructions can also be found in the welcome letter and Kitchen Fire Safety and Maintenance Tips hand-outs supplied to residents during orientation. These tips include:

- Neglecting appliances (including cooking appliances) while in use is extremely dangerous and therefore prohibited

PROCEDURES FOR EVACUATION FROM STUDENT HOUSING FACILITIES IN THE CASE OF A FIRE

Whenever a fire alarm sounds at any on-campus student housing facility, all residents, guests, and staff should immediately evacuate and assemble at appropriate nearby locations.

- » Residents of HRE facilities are instructed to assemble at their building's pre-designated meeting point so that Resident Advisors can take roll.
- » Residents at USA facilities are encouraged to assemble at nearby safe locations.

In the case of an actual fire at an on-campus student housing facility, re-entry is not permitted until the fire department or emergency crews provide an all-clear.

The following are fire safety evacuation guidelines for residents, guests, and employees at on-campus student housing facilities (these guidelines are also applicable to other University buildings):

1. Know where the exits are for building.
2. Know where the fire extinguisher(s) are located on the floor.
3. If there is smoke:

for heat, and if the door or door knob is hot, DO NOT open the door—call (911) or the University Police (801-585-2677); provide the building and room number,

- Hang a towel or bright object out of your window if unable to escape
- Place a wet towel in front of the door to block smoke infiltration.

4. If it is safe to exit:

- Leave quickly, exiting the building by the closest exit;
- Leave the door unlocked;
- Close all doors;
- Take keys and ID with you;
- Assemble with others at a nearby safe location or assemble at the pre-designated evacuation assembly point and check in

5. Reentry:

- Only re-enter the building after the appropriate emergency personnel have indicated that it is safe to do so.
